Agenda: - Progress Report of Anesthesia program self-evaluation for Accreditation

As per the accreditation Standards by Ethiopian Education Authority (ETA), Anesthesia program self-study have been conducting as a requirement for accreditation. The ETA Developed accreditation standards in a national and international context to introduce a new accreditation system in Ethiopia. Therefore, ETA approved the anesthesia program to be accredited as per the nine (9 standards) anesthesia standards: including program outcomes, curriculum, learning, teaching, and assessment, students, academic staff, educational resources, research and community service engagement, program management, and continual quality improvements.

Major activities undertaken and future action plan:

1. Training for all students, accreditation committee and staff was given for better support in the accreditation process.
2. Student satisfaction survey (SSS) was done, then analyzed and document development done per the accreditation standards set by the Education and Training Authority (ETA).
3. From SSS result, areas of strength and areas that require improvement were identified
4. Different documents/manuals were collected which is necessary for supporting our narratives.
5. Different guidelines were prepared such as student selection and admission guideline
